

## Bewdley International Mountain Marathon 9/2/2017

My thanks to all who came and turned it into a great event.

Special thanks go to Marian White who manned the cold finish whilst I was otherwise engaged. And my wife, Barbara, who took over registration and rushed off to print more maps when it looked like we would run out. Also, to Andy White who pointed out an error on the Russ-O course. Unfortunately, I changed the wrong wrong number which meant that only 8 out of the 10 controls could be visited. This did not affect the Long course as, with Andy's help, I corrected the correction before Long course competitors copied down the third part of their course.

### Short Course

1)	Alan Booth	41.00	(with the benefit of local knowledge)
