

BIMM 2018 results

Thanks for coming! Sorry for the lack of SI but at least it simplified (!) things.

I was impressed that nearly everyone navigated successfully round the 1903 map ó Stourport is quite unusual in having had its parish church replaced, but most of you weren't caught out... (The 1929 map is much closer to how things are now: <http://maps.nls.uk/view/101586034>)

My plan of having 8 controls south of the river to persuade you to cross the bridge into lovely (?) Areley Kings seems to have been effective. Well done for being up to the challenge ó the BIMM may be a tough test, but at least it's not as hard as the Brinton Arms pub quiz! AB
