I think it's fair to say that Sanders Park does not present much technical or physical difficulty, but it's great for a high-speed blast. A 30 minute time limit would have posed a similar challenge as a 60 minute limit on some of our other areas, but deprived the older and younger participants of a decent run. So I kept the 60 minute limit and accepted there would be a large proportion of clear runs.

There was a bit of confusion when a HOC member (who shall remain nameless) navigated to the wrong bridge for control 13 and reported it as missing to Shelley and Felicity, who understandably didn't bother to visit it. Otherwise they probably would have punched it and finished quicker than Alison.

Thanks to Roberts R and V, Steve and Dave for collecting controls and helping pack up.
