169 out of order  
NC

We had the weather and eventually the sun went to bed so we could have a night run.

It was interesting to see a number of runners decide to avoid the Rifle Range entirely based on past experience. It also sounds like nobody was troubled by local residents or the cattle.

Thanks to Andy & Marian W, David W, Peter L and Barry H for their assistance retrieving controls and road signs. And to Robert V for his car parking skills and pre-event support, especially as a result of the last minute car parking drama. AMJ
