

Hartlebury Common - 18th September 2004

Organiser's Comments

This was the first event I'd organised and I didn't expect it to be as stressful as it was! The whole experience showed me how much work organisers put into events and now I'll never complain about an organiser again! It took a while for things to come together and being away for all 7 weeks of the holidays made the final 2 weeks a mad rush. We had more runners than expected - lots of KSW kids trying several courses who seemed to have a great time despite the rain! I have to say a huge thanks to my mum Marian for encouraging me and to Ian & Rick Roberts who planned the courses to perfection. Also, to the various HOC members who braved the variable weather conditions to help set up, run the event and collect in controls – you made the day so much easier.

* n/c – not only had she put out the first and last few controls on the green course, she then lost her pen before the second set of maps.... and knowing she was last out, “brought back” a master map....
