

## Results - Night Street League Event 5 - Streetly 16th December 2004

Fourteen competitors turned out on a dry evening to work up an appetite running around the streets of Streetly , before sampling Dots Christmas feast . We seem to have used this area every year since I've been orienteering , so it's difficult to plan something different . However with the help of a new map I hope I was able to set some navigational challenges .

The Short course was a bit of a romp for Andy White who won in 9.8 minute k's . Maybe he should be stepping up to Medium! The Medium course was close with Colin Spears snatching victory from Messrs Fauset & Vickers who jostled for second and third . If the Medium course was close the Long course was almost a photo finish with Iain Embrey, John Embrey and Brian Hughes only separated by 29 seconds .
