COMMENTS

It will be no consolation to those of you on the long and medium course who lost time due to the poor mapping, that the map has now been corrected! Thank you Russ for accurate correcting of the mistakes which I checked this morning. I must plea mitigating circumstances, I ended up planning/organising two events only two weeks apart and before finalising the street map had to go into Kinver Edge to map far more extensive changes than expected. I simply forgot to go back to the small area of the street map I had not visited. Annoying because it ruined one of my better route choice legs.

The EVO supplied by Andy after the event was excellent concentrating on maps and route choice and was well attended by 8 participants. I was only sorry to miss most of it as I waited for the last runner.
