Organiser and Planner Brian Hughes.

Thanks to the 15 who travelled to Worcester on a mild and dry November night, and made the occasion into possibly the most popular Street event held in the city. Good to see the Whites on the WNSL scene and to welcome and to get to know some youngsters coming to the sport, including Andy Hill from SBOC. As ever, I have disqualified no one for 'mispunching'. Instead I have penalised each error by between 15 s and one minute, depending upon how certain I was that I had the correct lamp post and that the circle was correctly positioned. Apologies for the small errors in control descriptions. I did not have the usual lead in to plan and remap and time ran out meaning that I was unable to test run courses which I always try to do. Orienteers are a very intelligent bunch and no one seems to have been too put out.
