

**BIMM Results**  
**Salinae, 26 Mar 2010**

(Copied by the Webmaster from Russ's Forum post)

Yes, another successful Bimm. My thanks to Andy for his help on the night and Alex for coming to give the prizes, also to Barbara.

I think that Salinae makes a good urban orienteering area. I was disappointed that I could only fit a tiny portion of the Chawson area onto the map. I am considering trying to extend the map but if anyone wants to take over, they are most welcome. Fortunately the locals were most friendly, especially at The Riflemans Arms. The young people in Viners Park were interested and not disruptive. I collected all my numbers today (45 min by bike) and found that only two had come away from their ties but were close to the there original locations, doggy bin and post box. I suspect that they were pulled away by dogs. The numbered confetti (there in case numbers were removed) were still evident, so the event could have continued if there had been some interference.

The results:

**Short**

Marian 35min 50s  
Jacky 38min 50s  
Peter 49min 40s

**Medium**

Adrian 75min 18s  
Robert 80min 40s  
Paul 91min 10s  
Liz 97min 0s (Liz retired but everyone gets a time at the BIMM)

**Long**

John 81min 02s

This shows that the courses were not too short as I feared. The Short was close to spot on and the Medium normal for a BIMM (that means longer than normal NSE)
