| 3. Alan Segar | M35 | 72.20 |
| 4. Peter Langmaid | M40 | 72.52 |

Thanks for those who turned up and thanks for the complimentary comments on the map. I think for clarity and ease of reading at night it would be improved by leaving off all the settlement detail and mapping it as white. However I have wanted to urban map the area for a while so I hope it will be used for a few future events possibly, a change for a summer evening event. Thanks to John E for remapping one area whilst at the same time winning the long by 10min (even faster 4min faster than me and I knew where I was going).

Mike
