### **Organiser's Comments**

It was a shame about the weather and traffic which may have kept some away, but those that did attend were treated to the delights of West Bromwich's redeveloped pedestrianised shopping area and its mix of old and new in the surrounding streets. Thanks to the very accommodating manager of the leisure

centre we had a really comfortable corner of the café as our 'assembly area' at no charge, with well-appointed toilets adjacent for changing.

Out on the courses, the lower layer at the tram stop under the bridge on the medium course, caught a couple of people out and they were duly punished for getting a lamppost at the wrong level. Also the difference between the out-of-bounds indoor shopping area and the in-bounds outdoor area, with high level canopies, caused some confusion and some non-optimal route choices. However, most confusion was caused by the time on the old bus station clock, with runners recording wildly different times, none of which matched what it was supposed to be – quite a mystery that!
