

Results and Comments for Kingsford park 29th June 2004

Organisers Comments

Thanks to all those who supported this event, I hope you all enjoyed the courses, if this area is good enough for a colour -coded event then I would like to have another go.

Many thanks to Alison Sloman and David Williams for an excellent map, and further thanks to Robert Vickers for setting up the clocks at the beginning, and still being the last one to leave.

Planners comments

All of the courses were possibly a bit on the long side, but most seemed to enjoy that fact , and everyone seemed to get value for money.

Controllers comment

In general the controls that were in the open or were too visible from nearby paths had been placed a bit too discreetly, hopefully this was a refreshing change .

Blue course- control 1 Veg Bdy did give some problems but all found it , well done.

Green Course – the small gully control 9 was a bit further from the path than intended- apologies.

Many thanks for all who stayed on to help collect controls this was very much appreciated.

Orange Course 2.5km 9 controls

1.	C.Farrington	48mins 15secs	
2.	P.Bylett	59mins 45 secs
