\* = 5mins penalty for missing out a control, in some cases because course closing time had been reached.

Many thanks to Brian Hughes for helping to collect in controls and to Colin Spears for helping with the parking in the farm yard. Sorry if the green course was a little difficult. I tried to make it technical as possible. I was surprised at how many errors there were in copying the courses from the master maps. Maybe this is a skill we are losing through so often having overprinted maps. No takers on the orange course. Perhaps a light green course may have been useful instead on this occasion.
