A lovely evening and hopefully for most an enjoyable run. Good to see a decent turnout even a handful of runners from other clubs.

For those who are not familiar with the area perhaps the courses were a bit long , it is fairly hilly. With small control kites I planned to make it easy at each control with route choices and navigation in between, so the infamous control 6 blue was regrettable although I tried to guide runners in from the west or south [course notes] those who went round the other side lost time. Having said that the fastest times were quite impressive I couldn't even go as fast myself and I knew the course backwards.

Finally thanks to David Barwick who arranged permission, to Alison who handed me a well organised bag of tricks and to Brian and Richard who collected controls , much appreciated.
