Thanks to all for turning up and making my efforts worthwhile. It was great to see so many new or newish faces but as Hartlebury is a fairly technical area the event did prove challenging to a number of you.

Congratulations to;

Russ for forgetting a pen but remembering the controls

Russ's stick for, once again, keeping up with him

Roger K for writing down the first letter of one control!

Please can I remind runners who wish to do Yellow and Orange to notify planners in advance so that courses can be planned and maps produced.

Finally thanks to John, Kirstin, Robert and Mike for collecting in controls.

Charlie
