

## Habberley Valley SEE - 21<sup>st</sup> May 2009 - Results

Firstly, sorry it has taken so long to get these published, but I have been fully occupied with SinS and other matters since the event.

I always think it is a pity the area is not three times its actual size. It is so exquisite, yet so difficult to plan courses of a decent length without too much repetition. My solution was to plan a Blue course with three maps, and to use two of these to make a Green course. To avoid having to print a huge number of maps (everybody expects pre-printed maps these days) I adopted a map recycling system, which seemed to work. Some repetition between the northern and southern blocks of forest through a narrow, boring corridor became inevitable, made worse by the environmental out-of-bounds areas.

Despite this, those who came seemed to enjoy the fine evening, which makes the effort worthwhile for the planner. It was especially nice to see some new faces, including the ATC contingent. We hope to see you again.

Thanks, as always, to Richard, John, and both Andys for getting the controls in.
