

RESULTS EAST PARK SEE 30/7/09

Thanks for coming, and thanks for taking up the challenge, which some of you enjoyed, some of you less so! The task was tricky to say the least (finding controls without a map, and then navigating on from those controls), and it was interesting to see the various strategies that people adopted. I hope the others don't mind if I especially congratulate John and Richard. In working out the placings, I've taken into account the sprint time, the score time and the number of controls found.

Thanks to Wolverhampton parks department, to most of the local wildlife, and to Richard and Peter for collecting controls.

I promise that my next SEE will be "plain". Adrian
