Comments from Organiser

Thanks to all of those who came to the event, to Alison Sloman for providing me with an up-to-date and accurate map and to John Leeson and John Embrey for collecting in some controls which allowed me to get home by 10 pm.

I tried to take you through the best parts of the wood and to place controls on exact locations so that you could find those small flags with relative ease. Control EK depression may have been on reflection a bingo control. The times on the Green course were a little longer than anticipated and I perhaps should have avoided that last little loop that meant increasing the height climb back to the finish
