Thanks to the landowners for granting permission to use this "interesting" area. There were justifiable comments about control hanging which generally concluded that they were where they should have been. Apologies for missing the description for the Pond N side (Green 5, Blue 15 & Orange 4) The use of "score-in-the-middle" on the Green and Blue courses allowed me to avoid blame for any route choices in the most overgrown part of the map!

Finally many thanks to the control collectors who ensured an early finish.
