Comments from Organiser

Thanks for the good turnout on a dry evening for once, to Mike Baggott for providing me with an up-to-date and accurate map and to Charlie Nelson and John Bennison for collecting in controls.

It was a lot wetter underfoot the day before when I decided to tape out all control sites in case of vandalism. This proved to be a wise decision as during the event 3 control banners were moved to different locations and 2 controls disappeared completely.

The only problem control site appeared to be RZ isolated tree E side which was perhaps sited too far down the slope. I also left a red tape on the embankment above which I was originally going to use for the event and this confused Charlie N.

John Pearson
