A glorious evening that was a bit a warm for some runners. Most of you said the courses were enjoyable. It was good to hear that many hadn't competed on Malvern Common much before. And even some of the locals went to new parts of the area or made errors in places they thought they knew.

A few runners on the Medium misunderstood my using a numbered lamppost as a control and spent some time running up & down the street section looking for a kite or plate. So I've not disqualified you. Clearly not all SEE runners do the NSL.

There was a mystery runner who didn't register (timed at 35.18)!

Thanks to Richard for manning the start (prep for his SEE in two weeks' time) and to Judith, Paul and John for collecting-in all the controls.
