Two years ago I planned a Sunday morning event at this venue, but it coincided with the Bank Holiday weekend and some wet weather, so attendance was poor and I had a stock of leftover maps – enough for another event...

Unfortunately the rain curse struck again and it was more than grey and drizzly this time. I managed to avoid the mid-afternoon downpour whilst placing controls, but most runners got a soaking when the rain came back in the evening.

There was some good competition on the longer courses, which were tougher than usual for an SEE. John Pearson pipped Barry Houghton on Green and the first three on Blue were within six minutes. Also a very good effort from Alex Mitchell on Green in the conditions.

Thanks to Johns L and P, Barry H and Adrian (who got the short straw) for collecting controls. Lost property – one rain visor.
