

## Gheluvelt SEE, 18 June 2015

A total of 23 runners (including two adults shadowing juniors on the Green course) enjoyed a beautiful early summer's evening at Gheluvelt Park and the northern side of the Pitchcroft racecourse and the network of streets that lie between them.

I was rather horrified to find that the goalposts had literally been removed from the centre of the racecourse in the week before the event (probably at the end of the football season) as one of my controls was on one of the many goalposts that were present when I did a recce the week before.

Adam's performance on the Blue course was magnificent, considering he wasn't even sure about what course to run when he turned up! Russ (minus his stick) secured a great result on the Green course. Andy White had a bit of a mare on one of the later controls and was docked two minutes for not punching it. I'll leave the SEE supremo to decide if that is a fair penalty!

All of the gripped SI controls survived the evening. Thanks to Andy W, Marian, Peter, Andy J and Sue for collecting in which meant I got home just after 9.

The results were:
