### Comments

I hope the excessive summer growth didn't spoil your enjoyment too much. I was amazed at the difference 4 months makes. When the map was updated there was virtually no bramble in the most northerly part. My fears about the difficulty of managing on my own on the day didn't materialise because of how club members rallied round to help, even those who didn't come to run.

Congratulations to two of the newcomers who attempted a second course.

Many thanks to control collectors Paul, Kerstin, Alex, Arthur, Sebastian. Martin, Sue, Marian and Andy W. Hope I haven't forgotten anyone.

Lost property:

A pair of brown framed glasses were found at one control. If they were yours contact me at [alison.sloman@blueyonder.co.uk](mailto:alison.sloman@blueyonder.co.uk)
