Burlish Top and Burlish Meadows, 10th June 2021

Thanks to all who came to enjoy the 'new terrain', including Mapper Paul Basher and his grandchildren. The requirement that we stay on paths on Burlish Meadows, plus my wish to have an A4 map at 1:7500, meant that it was difficult to make the course longer without making the map confusing. This meant that the faster runners didn't have to make the tricky choice of which controls to omit, something which caught out many others. The proximity of 24, 25 and 26 meant that they would have been easier than going south of the road.

Prize for 'closest to an hour without being late' goes to Ian Pickering. 59.56, a well-judged run!

Consolation prizes for 'wrong side of a fence' go to Steve Nightingale, who found himself just a fence away from the Finish after running from 17, and Paul Hammond, who tried to follow the paths from 19 to 21. Maybe I should have made the uncrossable fences more visible....

Andy Hemsted
