Robert Vickers	M80	HOC	57.21	11*		110
Nigel Gardner	M60	IND	75.38	25	-157	93

We were lucky with the weather ... the rain held off until the last controls had been collected. Many thanks to those helpers; we were finished by 8.30.

\*Apologies to those who had problems on 11 and 24; I shouldn't have chosen those control-sites. I have added an extra control to those who went from 160 to 162 without finding 161, and to those who went from 175 or 183 to 185 without finding 184. I had spent some time trying to find off-path control-sites that were fair with summer vegetation, but in these two cases I failed. I blame the Controller.....Mr A T Hemsted Esq!

Andy Hemsted
