Turned out nice again! I did get rather chilled putting the controls out. Thank you to Robert Vickers for checking me out of the forest during my several visits. Also to Alison for the map, Russ for arriving early – as contingency in case of untoward events, all the control collectors, Kerstin for the equipment, Charlie for permissions and especially to Rob Stupelis for taking over registration and finish as part of this DoE service commitment. Gold medals for to Eloise and James for being closest (but under) the time limit. According to the printout Eloise went direct from 7 to 9, I'm not able to interrogate the SI box (158) in case we have a case of dibber writeback failure.

If we don't have a race planned here for next year – I'll want to know why. There is a LOT of mature larch – even if Phytophthora ramorum does not arrive in the woodland I'd expect felling to start in the near future. I've added some more photos to the album: <https://photos.app.goo.gl/QfKQUE2mCE14RQes6> (I note the RAF still hasn't fully understood the art of camouflage.
