Thank you all for coming.

This was my first time planning a 'proper' O-event and I hope you enjoyed it. My biggest challenge was trying to place the controls in testing locations, while also being sure myself of where they were! To this end, I suspect it might have been a bit 'easy' for some, but hopefully the density of foot/bike paths meant that you could never switch off for too long.

Congratulations to Richard Price and Eloïse Lee who both completed the course within the hour, each taking first places spots. Coming in just behind were John Leeson and Simon Lanckham, the only other runners to make it to the far end of the map for the 4-controls placed there. Had John spotted the route along the road between #11 and #12, it would have been tight between him and Eloïse.

Big thanks to: Paul Hammond, Ian Gamlen, Richard Stanley, Andy Howman, Robert Rose and Eloïse Lee who all helped collect controls, Alison Sloman for the map, and Robert Vickers for securing permission with NT.

Hopefully see you all at the next, and final SEE, event at Bartley Green.

Ben.
