

Walton Hill WEE 13/01/2022 Results

Comments

Thank you all for coming and braving the cold weather. I think the general consensus was that it was a tough course, especially with the physical terrain.

Some runners decided, probably sensibly, to treat it as a normal score event to avoid some of the climb and just enjoy being out picking the controls they wanted. This means that their official score does not reflect the number of controls they collected, so I have included total controls collected in the results table, even though it does not effect the results.

Hope to see you all at future events.

If you think I have made a mistake with your result, please email me at robthomasrose@icloud.com

Thank you to Andy Hempstead, Peter Langmaid, Kerstin Mitchell , Richard Price, Sammy Pritchard and James Thomas for collecting controls.

Thank you to Alison Sloman for producing an updated map and Robert Vickers for organising permissions.

Scoring Updated 15/01/22

Throughout the night I told people if they dibbed a higher control by mistake I would ignore it and they could continue as if it hadn't happen. This was due to the twisty nature of the course which I thought may cause confusion. I hadn't applied that correctly in a few cases. I have updated Mandy Mackereth's, Phil Dolphin's and Sally Ingrams's scores to correct this error.

Robert Rose
