

Officials' comments

Planner (Andy Hemsted):

It was enjoyable planning in a part of the Wyre Forest where I've never been to a normal event. I tried to keep you out of the worst brambles (as well as the OOB areas), and the comments yesterday suggested that this was indeed the case. Apologies to all on the Short Green for the uphill finish ... I should not have included control 80 on your course. As Hilary Simpson said to me at the Finish, "Would you have made Penny do that?!!"

Thanks to Controller Henry Morgan for picking up one incorrect tape-placement, and for providing good advice throughout, and Organiser Steve Chiverton, for making sure that the damp car-parking field would be viable. Thanks also to the unsung heroes of this event: Alison Sloman for the excellent map, and Charlie Nelson for the endless email-hours (and several visits) to obtain the necessary permissions.

Organiser (Steve Chiverton):

I echo Andy's vote of thanks, but would also include one to Andy himself. The planner provides the key ingredient to an enjoyable experience for competitors.

Lost and found:

- 1) Found - control description holder: Clear on blue plastic - contains Short Green
- 2) Found - control description holder: Red and black - contains Short Green
- 3) Lost, located and returning to owner: one Renault electric vehicle key
